-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipate by Hobert.

The patent to Hobert discloses a casino craps game Fig. 1 comprising a jackpot betting area 51 and payout from the jackpot bets based upon preestablished consecutive outcomes, col. 5, line 54 to col. 6, line 2. One jackpot embodiment of Hobert includes preestablished consecutive outcomes of “rolling a predetermined number of consecutive natural numbers (7 and 11)”, col. 5, lines 28-29. Hobert also recites that the host may require that the series of rolls “be completed before the shooter does not pass, but not counting any come out roll either for or against satisfaction or the requirement for winning the jackpot”, col. 6, lines 27-33. This suggests that a shooter may roll the consecutive natural numbers (7 and 11) and get paid the jackpot before the shooter establishes a point.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3712

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hobert.

Hobert discloses different craps game jackpot embodiments requiring consecutive multiple rolls of the dice, col. 5, lines 4-40. In view of such teaching, it would have been obvious to a person having ordinary skill in the art to provide jackpot betting areas requiring different consecutive multiple rolls (four rolls, five rolls, etc.) of the natural numbers (7 and 11), to Hobert's craps game. This modification would have added more jackpot betting areas to Hobert's craps game, thus making Hobert's craps game more exciting to play.

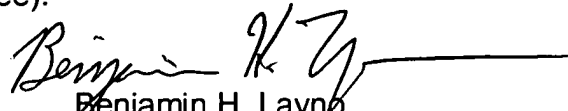

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Moore, Jr. and Ornstein et al. disclose casino craps games having jackpot betting areas requiring preestablished consecutive dice roll outcomes, or consecutive wins in order to win a jackpot.
